U.F.W.A. Meets at Home of Mrs. Culp

The regular meeting of the Arrowwood local of the U.F.W.A. met at the home of Mrs. J. S. Culp on Wednesday, Jan. 27th. Twenty-two members and four visitors answered Roll Call. "Helpful First Aid Hints." Nurse E. Maude Davidson gave a talk on the school and clinic work she is doing in the Marquis Municipality, which was most interesting.

Mrs. R. R. McBride gave a report on "Peace." A program contest arranged by Mrs. W. H. Ellis took up considerable time. Mrs. Shouldice winning the prize for the most complete program. Joan Allen gave an interesting recitation entitled "Chicken-pox." A delightful lunch was served by the hostess.

Roe-McKinley

A quiet wedding was celebrated Wednesday, January 20th, in Calgary when Miss Vivian McKinley of Arrowwood was united in marriage to Lyall Roe of Caresland, by Rev. Todd. There were no attendants present.

Our Youthful Curlers

Saturday last was a banner day for the curling youths of town, when their annual bonspiel took place at Arthur Saunders' rink. There were two events, the Grand Challenge and the Consolation; but both were contested vigorously by their skips, Saunders, Bowman, Beagle, Dumka, Eshom and Norton. The 'spiel commenced at nine o'clock and at twelve o'clock Mrs. Saunders served lunch to the boys.

The winner of the Grand Challenge was Arthur Saunders who curled carefully to win over Clarence Norton and Donald Bowman. The Consolation event was won by Stuart Beagle. The winning rink was composed of (skip) Saunders, K. Cochrane, McKinley.

Prizes for the winning rinks were very kindly donated by R. R. Saunders and were as follows:

Grand Challenge—first, 3 Eversharp; second, 3 packages Marshmallows; third, marbles. Consolation—first, 3 tubes of tooth paste; second, 3 erasers.

A hobby horse that was once the toy of Napoleon was recently sold for several hundred dollars.

Farmers to See Picture on Fertilizing at Gleichen

A public meeting of farmers is being arranged to be held in the Gleichen Community Hall, on Monday, February, 8th, at 2 p. m. The meeting is sponsored by the Consolidated Mining and Smelting Company of Canada which will be represented by some of their experts and officials. Moving pictures and slides will be shown exhibiting the wonderful results accomplished by the use of chemical fertilizers on prairie soils. Ammonium phosphate triple superphosphate and sulphate are fertilizers which are being used and whose influences on crop returns, earlier maturity and more even ripening is well displayed in the most striking differences shown on the screen. It is anticipated that these fertilizers are going to be used extensively in Western Canada and it is expected that a large attendance will be present when this most vital question of dollars and cents will be discussed.

An arrangement has also been developed which makes it possible that an ordinary drill may be equipped to sow the commercial fertilizer at the same time as the seed. The meeting will be open to the public and free to everyone.

Gleichen Bonspiel

The Gleichen Bonspiel opened last Monday morning with twenty-three rinks taking part. The three following Arrowwood rinks entered the bonspiel:

Saunders, skip; Chrestenson, 3rd; Beagle, 2nd; McIrvine, 1st. J. Mackie, Jr., skip; Hesketh, 3rd; McKinley, 2nd; R. G. Bell, 3rd.

Norton, skip; Duncan, 3rd; Larsen, 2nd; Schertz, 1st.

Mackie's rink secured fourth place in the Grand Challenge and Norton's rink third place in the consolation.

Three sheets of ice are being used this year.

B.Y.P.D. NOTES

The last meeting of the B.Y.P.D. was held at Mrs. Lawrence Larsen's on January 15. Considering that the Bonspiel was on full swing, our attendance was good, eighteen being present.

Mrs. R. Shatto led the discussion on "Ideals" which was enjoyed by all.

The next meeting is a social to be held on January 29.

Annual Meeting of Arrowwood United Church

The Annual Meeting of the local branch of the United Church was held in the School on Friday evening, January 22. At six o'clock the Ladies' Guild served dinner in the dining room and at eight o'clock the meeting opened in the classrooms on the main floor.

Mrs. McCann, who has been re-elected Superintendent of the Church School gave her report. The school has a total membership of 132, including teachers and officers and raised for local purposes \$136. The Rally Day offering of \$6 was sent to the Missionary and Maintenance Fund of the Church and \$1 was sent to the R.E.C.A. at Calgary. The report of the Guild was presented by Mrs. Jones. They have 28 members, held 11 meeting and raised \$292.40 of which \$36.40 remains; a balance in the bank.

Miss Ingraham has two groups of C.G.I.T. with eight members each. For local purposes they raised \$18.00 and hope to have \$24 for the Girls' Work Board before February 15th. Mrs. R. R. Saunders made a strong appeal for the girls. Then Mr. Ross gave the report of the Y.P. and presented from the Y.P. to the congregation sixteen hymn books with music.

The financial report was presented by Mr. Taylor. The total amount raised was \$761.01. The general collections increased 15 per cent and the subscriptions 20 per cent over last year. Mesdames Kemper and Mackie were re-elected to the Board of Stewards and Dr. E. J. Liesemer was elected to take the place of Mrs. Traxler.

The report of the Session was presented by Mr. Tharle. This Board has not been very active (Continued on page 2)

Young People's Reading Course

COMMENT ON BOOKS USED

The University Department of Extension reading course for farm young people was outlined in the last issue of The U.F.A. by Miss Jessie Montgomery, librarian.

"The books for the course have been selected, Miss Montgomery states, with a view to unity; thus giving those who have more time to read, or who read faster, or who are keener on the subject, an opportunity to read around it and from time to time supplementary titles will be suggested for such readers.

"The choice of subject, Miss Montgomery points out, has been suggested by the times, the particular conditions under which we are living. More perhaps, than ever before, are men and women discussing our so-called 'economic system.' And again and again one hears the question asked: 'How have we got into this muddle?' Sometimes the opinion is voiced that we are a great deal worse off today than men were 100 years ago, before the age of mechanical invention began, that it

(Continued on page 3)

Better Business Ahead Says Beatty And Canada is Ready to Move Forward

Canadian Pacific President Issues His Annual Review of Economic Conditions and the Outlook for Future Development and Progress in this Country.

BETTER business this year, says E. W. Beatty, chairman and president of the Canadian Pacific Railway, in his annual review of Canadian business for 1931. A condensed report of the review is as follows:

Mr. E. W. Beatty
Chairman and President
Canadian Pacific Ry.

the great nations of Europe and to the United States.

"Economic depression has reached its most pronounced stages in those countries more highly industrialized. Therein lies one of the reasons why Canada has experienced less dislocation than some others, and is in a better position to register a rapid return to normal conditions. Having its economic basis still very largely in the development of raw materials, Canada has less distance to travel along the road to re-establishment, and there are credible reasons for believing we have gone some distance in that direction. Thus we say that to Canada the year 1931 has been one of re-organization and reconstruction.

"The railway situation has moved into recognition as Canada's most imperative domestic problem. Its causes, complexities and possible solution are now being probed by a most competent tribunal the appointment of which at this time was an act of common sense and courage. The Canadian people will present to an interested world renewed evidence of those qualities if they give their confidence to that tribunal and meet its suggested solutions with considerations of economic value unbiassed by political color or preconceived prejudice.

"The nation, its various communities, many of its business institutions and no small number of its individuals have in the past ordered their affairs as though the way to enduring prosperity lay through extravagant expenditure with little or no thought of stability of investment or profitable return thereon. Thus as a nation

we are faced with debts that must be paid. I know of no way of meeting them other than by hard work and strict economy. Of wise expenditure leading to the opening up of undeveloped business or lowering of production costs there can be no just criticism at any time, nor should the railways be blamed too carelessly for having looked ahead and prepared their facilities so that future business reasonably assured might be adequately taken care of.

"The Canadian Pacific, for instance, has no apologies to offer for any of the more recent important additions and improvements it has made to its services. The "Empress of Britain", built largely to develop a new class of de luxe American trade for the Canadian route to Europe has justified our best expectations, and up to the end of the world-cruise in April next a reasonably good profit on her operations is assured. The Royal York Hotel at Toronto has also done very well considering existing conditions and the need for such a convenience for the traveling public in that city is just as great now as when the announcement of its building was so enthusiastically hailed. It is upon such forward moves as these that Canadian development must ever be predicated. If the original building of the Canadian Pacific had been held up until existing traffic justified its operation Canadian national development would now be decades behind its present position.

"Over the past year railways have been more adversely affected by the general trade contraction than has any other branch of industry. A 22.1 per cent decrease in Canadian Pacific gross revenue for the first ten months of the year is symptomatic of these conditions. The fact that we were able to effect a 19.1 per cent saving in operating costs over the same period is an evidence of the high standard of efficiency at which the property has been maintained. One direction, in which we were not able to make reductions was in that of taxes which will run this year to \$7,500,000. Since its incorporation the company has contributed over \$121,000,000 to Canada's tax collections. Under adverse conditions of which an unreasonably forced standard of competition was not a small part, the company carried on its services in a manner calculated to retain the confidence of the Canadian people. This is shown by the fact that since September, 1930, the number of its Canadian shareholders has grown from 26,185 to

35,775, an increase of 9,590, bringing the Canadian holdings up to over 46 per cent of the total number of shareholders.

"It was recently a most encouraging experience to me to go through Western Canada and witness the courageous manner in which westerners are facing the situation. Any idea that the West is giving itself up to self-pity on the score that its future as an agricultural country is doomed should be abandoned forthwith. As a whole that country is not doing too badly, and its people are firm in their well justified knowledge that they are going to do as well as ever in the not too distant future. The most seriously affected areas comprises but 20 to 25 per cent of the West, and over the remainder the conditions are at least fair to good. Great encouragement has resulted from recent advances in wheat prices, and since the statistical position of that grain in world markets is undoubtedly strong, higher prices are not unlikely over the coming year. Intelligent interest in improved methods and lower cost of production as well as in the all-important matter of future diversification of farming is general. This and the fact that Western Canada has again shown that it can produce the world's best in both grain and live-stock is enough guarantee of that country's future. Eastern Canada has no less reason to view its agricultural destiny with confidence. Production and export of livestock and dairy products have increased and the fruit crops of Ontario and Nova Scotia are meeting with excellent markets abroad.

"An important increase in gold production, some improvement in the demand for lumber, an increase over the year in the volume of tourist traffic, a more satisfactory balance of foreign trade, and latterly a noticeable betterment in many lines of retail business are most encouraging factors in the general situation.

"He would be a bold man who would make any prophecy as to what is going to happen during the coming year. And yet I think it requires neither boldness nor second sight to justify the assumption that 1932 will, as it progresses, show marked improvement upon its predecessor.

"It is an old saying, of recent years brought much into mind, that one thing greatly to be desired is more business in government and less government in business. The period of economic stress has done more to prove the

truth of that statement than anything else could have done, and I find that a large and growing number of the Canadian people are accepting that fact as being abundantly established by the course of economic events through which we are passing. Under stress of war necessities it became the government's job to supervise practically everything economic that was carried on. In many cases supervision became actual operation. The natural result was that people and institutions began to look to government for the inspiration and direction which they themselves could have given much better had they carried forward their enterprises on business principles the efficiency of which have been proven through ages of stress and strain.

"The success which attended the flotation of the National Service Loan should be as reassuring to Canadians of the sound basis upon which their economic affairs stand as it has been to the world at large. Readiness with which our people were able to absorb the new bond issue established the fact that a surprisingly large amount of Canada's wealth was in liquid form and that the Canadian people had no hesitation in placing it at the country's service. The Canadian dollar has gone considerably below par in most of the world's money markets, an effect of world conditions which carries its own remedy in that it is calculated to encourage a more favorable balance of foreign trade. It has also contributed as an inducement to manufacturers from other countries to establish factories within our borders. Since August, 1930, approximately 125 new industries from Great Britain and the United States have been organized or are now in the process of organization.

"Ultimate results following upon the recent British elections are likely to be far-reaching in their relation to Canadian economic affairs. Important extension of our trade with Great Britain seems assured, and it may be expected that the holding of the forthcoming Imperial Conference in this country will profoundly influence the course of Canadian economics over the next few years. The Empire will be brought to a new realization of what Canada has to offer in the way of natural resources and opportunity for profitable investment, and the country will step once again into the forefront as a land towards which the most desirable class of immigration and settlement should properly flow."

NORMAN G. CARY,
Editor and Publisher

Before the next issue of the RESOURCE the Disarmament Conference will be in session. Petitions have been circulated and signed the world over and some countries have had national demonstrations in favor of disarmament. And in spite of the conflict in the East there is wide spread feeling that the age of war is passed. But he not deceived, it is not going to pass without a struggle. Militarism, like drink, is too deeply imbedded in tradition and too highly idealized to be uproot in a single attack.

Nor is this the first time that the Canadian people have faced the issue. We recall Canada's "tin-pot navy", whose introduction called up the question whether the way to peace was through armament or disarmament. It was then argued that preparation for war was the guarantee for peace. Today all fair minded persons must admit that it failed. Germany had the best army and Great Britain the largest navy but neither of them were able to prevent the Great War. Disarmament, too may fail but there is this difference. A regular increase in military equipment has marked all the nations since the opening of the century and it did not prevent war. Disarmament has never been tried.

Unquestionably the passing of the duel was largely due to the prohibition against the wearing of concealed weapons and the change in fashion which no longer required men to wear arms as a matter of dress. And we still have a sufficient number of fistie combats to assure us that there would still be plenty of shooting if arms were at hand. So it certainly looks as if disarmament would prove a peace measure.

Further, disarmament will lift from the shoulders of the people of every nation one of the heaviest burdens of taxation for an increasingly large part of taxes are annually used in military equipment. In these days when every effort is being put forth to cut expenditures, surely there is no move that would so relieve the economic pressure.

Because we believe that disarmament will prove an international and economic success we wish the very best for the sessions of the conference.

UNUS SOLUS

Annual Meeting of United Church

(Continued from page 1)

prior to July 1st and so the report is for the last six months only. Regular church worship has been held every Sunday and the pastor was present at all except two. Nine members have been taken into the church which brings the mem-

bership up to twenty-six. At the two Sacrament services over sixty partook of the elements. The vacancy caused by the removal of Mr. Shearer, was filled by electing Mrs. McCann.

There was a good attendance and a keen interest shown throughout. But it was clearly demonstrated that the congregation do not understand session government which is the characteristic of the United Church.

Cheap Method of Obtaining Extra Miles Out of Your Car

Louis E. Schimpf, of Camden, N.Y., in writing to Simplex Piston Ring Sales Co., of Cleveland, Ohio, has the following to say of Simplex Piston Rings:

"Having just finished reading an article in Motor Service magazine, pertaining to a certain make of piston ring giving 35,000 miles of service, I thought you might be interested to know that we have had similar experiences with your rings which I have been using for four years with the best of results. The following is one instance: We installed Symplex rings in a Model A Ford, which was one of the first to be delivered here. The mileage on this Ford was 37,000 miles when the rings were installed, and the speedometer last week read 103,000 miles which makes 66,000 miles of service and there is still no indication of ring trouble. This car has had only one carbon and valve job since the installation of Simplex rings.

Hockey

Deerfoot 2---Arrowwood 4

The Arrowwood Juniors made their first appearance last Thursday at the local rink when they outscored the team from the Old Sun School 4-2. The game was full of action throughout and the goalie of the Indian team made some very spectacular saves. Chester Beagle, Clarence Norton, and Clifford Asselstine were outstanding for Arrowwood. A large number of fans were present to witness the game and all were very enthusiastic over the junior team.

Old Sun—George Turning Robe, Willie Cutter, Willie Mayfield, Tom McMaster, Art Waterchief, Moses McGuire, Peter axe, Pete Blackhorse, Fred Cutter, Jackie Fox.

Arrowwood—McKinley, Eshom, Lewendon, Miller, Rubelke Williams, S. Beagle, C. Beagle Norton, Asselstine.

Referee—R. G. Hales

Deerfoot 3---Arrowwood 6

Coming from behind with a third period rally, the strong Arrowwood aggregation won their fourth consecutive game of the season from the Blackfoot Indians. The game played in Gleichen opened fast with McCullough getting the opening goal. The Indians came back strong and were successful in scoring two goals, while Arrowwood passed up many opportunities to score.

In the second period Deerfoot again beat Roberts for their third goal. During the final period the Arrowwood players worked like Trojans and kept the Indians behind their own blue line practically the whole period. Chisholm evened the score with two unassisted goals and three more goals for Arrowwood were scored in short order by the regular forward line. McCullough and Norton were outstanding for Arrowwood.

Deerfoot—Luke, Wright, Yellow Old Woman, Keg, Tom Studhorse, Yellow Horse, Eagle Ribs Owl Child, Spotted Eagle, Running Rabbit, Medicine Traveller, Stinson.

Arrowwood—Roberts, Horning, E. Mason, McCullough, Norton, Beagle, Chisholm, McLeod, F. Mason.

Revised Skating Schedule

All school children under 10 years of age to be off the ice at 8 p.m.

All school children any age to be off the ice at 9 p.m.

MONDAY.

Childrens skating—8.30 to 5 p.m.

Children 10 yrs. and over 7 to 9 p.m.

Senior hockey practice—9-10 p.m.

TUESDAY.

General Skating—8 to 10 p.m.

School children—8 to 9 p.m.

Senior hockey practise—7 to 8 p.m.

WEDNESDAY.

Midget hockey practise—8.30 to 5 p.m.

General Skating—7 to 10 p.m.

School Children—7 to 9 p.m.

School children under 10 yrs. 7 to 8 p.m.

THURSDAY.

Senior hockey practice—9 to 10 p.m.

Adult skating only—7 to 9 p.m.

FRIDAY.

Children—8.30 to 5 p.m.

Senior hockey practise—7 to 8 p.m.

Public skating—8 to 10 p.m.

SATURDAY.

Junior hockey—10 a.m. to 11.45 a.m.

School children—7 to 9 p.m.

Children under 10 yrs.—7 to 8 p.m.

Public Skating—7 to 11 p.m.

SUNDAY.

Public skating—2 p.m. to 5 p.m.

There will be no skating before senior hockey games.

WAGIN' TUNG

Vol. 1, No. 24 Arrowwood, Jan. 28, 1932 Items for Thought

Ours Is a Favored Land

Reports from the East and South indicate that they are having subzero weather, with lots of snow, while we are basking in warm sunshine and having splendid roads. Taking the latitude into consideration and the possibilities of our famed wheat lands, we are still of the opinion that the Arrowwood district is second to none in the Dominion.

Grain cleaning season is here again. Will your present equipment for cleaning grain give you a satisfactory job, remove all the wild oats and chaff and lost but not least, grade your grain and save only the best for the seed drill and in no way render the smaller kernels unsuitable for market.

We are agents for the famous "Viking" Grain Cleaner, a fanning mill, a winn separator and grain grader—THREE MILLS IN ONE for the price of an ordinary fanning mill.

All these operations can be successfully performed by the "Viking" and a demonstration will convince you.

Then too you may need a small engine to operate your fanning mill or do odd jobs about the farm. We have them in new and second hand jobs. Our second hand engines are reconditioned and in first class shape. They operate like new and priced to suit.

the times, and if you have need of an engine it will pay you to look these values over.

There was the Auto Salesman who was telling the Garage Man that Jones had tried to make him believe that he had driven his flivver for five years without paying a cent for repairs.

However the garage man believed it because he had sold the repairs. Now we all that poor business—then there was the wife who caught her husband kissing the maid and to square himself gave her fifty dollars to buy a new hat.

In reply to the question if she was going to let the maid go she said: "Oh, no, I'll keep her I'll want a new fur coat this winter. Now that's good business—or rather we mean it's going to be good business for the fur dealer."
